3:05 PM

If there are problems with how this message is displayed, click here to view it in a web browser.

You've been invited to participate in a class at awsacademy.instructure.com. The class is called AWS Academy Cloud Developing [1093]. Course role: Student

Name: t-cywong@stu.vtc.edu.hk

Email: t-cywong@stu.vtc.edu.hk

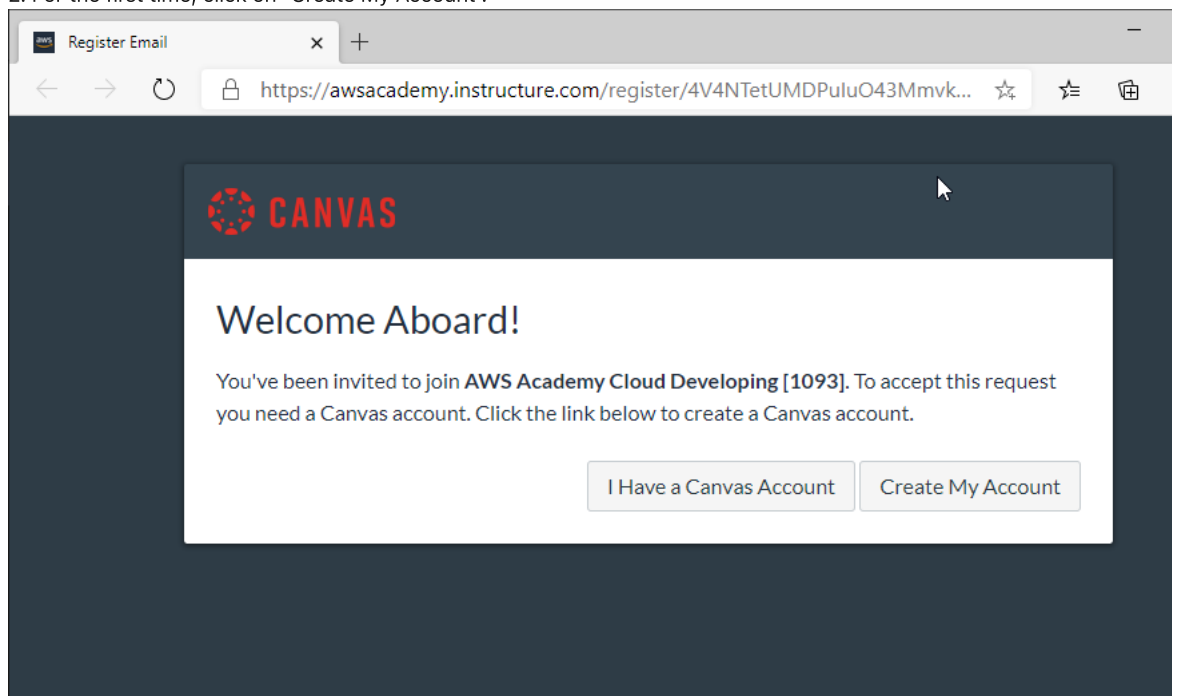

Username: none

You'll need to register with Canvas before you can participate in the class.

[Get Started](#)

[Click here to view the course page.](#) | [Update your notification settings](#)

2. For the first time, click on "Create My Account".

3. Input a password and click on "Register".

The image shows two screenshots from a web browser. The top screenshot is the Canvas LMS registration page. It has a dark blue header with the Canvas logo. The main content area is white and says "Welcome Aboard!". Below this, it says "In order to finish signing you up for the course **AWS Academy Cloud Developing [1093]**, we'll need a little more information." There are three input fields: "Login:" with the value "t-cywong@stu.vtc.edu.hk", "Password:" with masked dots, and "Time Zone:" with a dropdown menu showing "UTC (+00:00)". Below these is a checkbox labeled "I agree to the [Acceptable Use Policy](#)". At the bottom is an orange "Register" button.

The bottom screenshot is the AWS Academy Cloud Developing [1093] course page. The browser address bar shows "https://awsacademy.instructure.com/courses/1093". The page has a dark blue sidebar on the left with the AWS logo and navigation links: Account, Dashboard, Courses, Calendar, Inbox, and Help. The main content area has a header "ACDv1EN-1093" and a navigation menu with "Home", "Modules", "Grades", and "Discussions". The main heading is "AWS Academy Cloud Developing [1093]". Below this is a graphic of a classical building with columns and the AWS Academy logo. The text says "Academy Cloud Developing covers the fundamentals of developing applications with AWS. In this course, you will learn how to use the AWS SDKs to develop secure and scalable cloud applications on AWS." It also mentions "This course helps you to prepare for the [AWS Cloud Developer - Associate](#) exam. More details about the exam are in the [Certification Resources](#) module." At the bottom is a "Get Started" button.

For the student with AWS Academy Account.

1. Student receives an invitation email and click on "Get Started".

AWS Academy Data Analytics [1094]

AWS Academy Data Analytics is a foundational course for AWS Academy participants who plan to pursue careers in data analytics. The course helps learners develop skills with AWS services that are critical for conducting analysis of big data problems. The course consists of a series of labs that you can integrate with your existing courses on data mining, data analysis, or data science.
